

DISPATCH IN YOUR POCKET

Fleeteyes now integrates your dispatch system with your SmartPhone enabling you to see real-time incident data, vehicle status and mapping in the palm of your hand.

Fleeteyes MOBILE gives you access to dispatch that was usually only available if you were in the communication center or in a vehicle with a mobile data computer(MDT).

Key features

- Complete details of every incident
- Google Maps interface
- Keyword Search
- Route your self to any vehicle or incident
